Comments: The trial was spot on for the experts, you could ride the sections under the current rules which is NOT hopping and bouncing. There weren't any sections that you needed a hinge in the middle of the bike unlike other trials plus we weren't put through trees that were narrower than the handlebar width. All in all a very well laid out trial for the experts and of just the right severity for an expert combine trial

Comments: Great trial, the terrain was fantastic, now I know where all the rocks in the south-east have been hidden. Thanks to all those who did the behind the scenes work.

Comments: Great trial. Section 3 and 9 I do feel was a bit too hard for a combine trial as if you got it wrong it could get nasty. Rider numbers for Inter B were a mess; several observers had to ask my number and or route I was riding.

Comments: Hi I entered the new intermediate B class as I did in the first round. Unfortunately the organisers knew nothing about this. A pity about this as it looked like being a good step between novice and intermediate.

Otherwise an excellent trial and well organised.
